	terms	definitions	examples	pronunciation
	<b>Unit 2 IT systems (50)</b>			
1	<b>«maximize» button (phr)</b>	a small area on a computer screen that you click on in order to make a document or program window as large as possible	Click the " <b>Maximize</b> " <b>button</b> to resize the window.	/'mæksɪmaɪz/ /'bʌtn/
2	<b>«minimize» button (phr)</b>	a small area on a computer screen that you click on in order to make a document or program window very small when you are not using it but still want to keep it open	Click the " <b>Minimize</b> " <b>button</b> to hide the window.	/'mɪnɪmaɪz/ /'bʌtn/
3	<b>boot drive (phr)</b>	the disk in a computer that is used to start the program that makes the computer ready to be use	In the BIOS, set the first <b>boot drive</b> to DVD	/bu:t/ /draɪv/
4	<b>booting (n)</b>	the process a computer goes through when it starts up.	CD-ROM <b>booting</b> is one of the easiest ways to install	/bu:tɪŋ/
5	<b>byte (n)</b>	is the smallest unit of memory used to store a single character. e.g. 'A' or 'x' or '\$'	One <b>byte</b> = collection of 8 bits e.g. 0 1 0 1 1 0 1 0	/baɪt/
6	<b>check box (phr)</b>	is a GUI widget that permits the user to make a binary choice, i.e. a choice between one of two possible mutually exclusive options.	To prevent a program from starting up, clear the <b>check box</b> next to it, click OK, and reboot.	/tʃek/ /bɒks/
7	<b>dialogue box (phr)</b>	(AmE: <b>dialog box</b> ) is a window that provides information as well as asking for input from the user	When the <b>dialog box</b> appears, click 'OK' to continue or 'Cancel' to stop the download	/'daɪələʒ/ /bɒks/
8	<b>disconnect from (phr)</b>	to remove a piece of equipment from a supply of electricity	<b>Disconnect</b> the projector <b>from</b> the computer.	/'dɪskə'nekt/ /frəm/
9	<b>Ethernet (n)</b>	is a family of computer networking technologies commonly used in local area networks (LAN), metropolitan area networks (MAN) and wide area networks (WAN).	By changing your existing hubs to fast <b>Ethernet</b> you could dramatically improve importance.	/'i:θənet/
10	<b>Ethernet cable (phr)</b>	a type of cable used when a computer is connected to other computer networks; is a standart network cable.	And above them is the <u>Ethernet</u> connector, where you plug the <b>network cable</b> in.	/'i:θənet/ /'keɪbl/

11	<b>external drive (phr)</b>	is just a hard drive (HDD) or solid-state drive (SSD) that is connected to a computer on the outside rather than on the inside.	Blue-ray drive, DVD drive and CD drive can be <b>external</b> or internal but nowadays are usually internal.	/ɪk'stɜːnl/ /draɪv/
12	<b>filename (n)</b>	the name you give to a particular computer file	The total <b>filename</b> length is a maximum of 44 characters including dots.	/'faɪlneɪm/
13	<b>graphical user interface (phr) GUI</b>	which is the windows, buttons, icons, menus and other elements which most programs use to communicate with users and accept input from them.	The new version will be the first to put a <b>graphical user interface</b> on the operating system.	/'græfɪkl/ /'juːzə(r)/ /'ɪntəfeɪs/ /'guːi/
14	<b>headphones (n)</b>	a piece of equipment that you wear over your ears to listen to the radio, music, etc. without other people hearing it	After completing this task, they put on the <b>headphones</b> .	/'hedfəʊnz/
15	<b>icon (n)</b>	a small sign or picture on a computer screen that is used to start a particular operation	Could you just double click on the bottom <b>icon</b> ?	/'aɪkɒn/
16	<b>internal components (phr)</b>	is a term used to describe the devices that are installed in the computer.	Are these items <b>internal components</b> , peripherals or storage?	/ɪn'tɜːnl/ /kəm'pəʊnənts/
17	<b>right-click (phr)</b>	to press the button on the right of a computer mouse in order to make the computer do something	<b>Right-click</b> on an icon to open a new menu.	/raɪt/-/klɪk/
18	<b>left-hand pane (phr)</b>	displays the folders and drives	OK, so first, can you see "Computer" in the <b>left-hand pane</b> ?	/left/-/hænd/ /peɪn/
19	<b>licence terms (phr)</b>	the conditions, set by the software developer, under which a user can use a computer program	Near the start of the process, it will ask you to agree to the <b>licence terms</b> .	/'laɪsns/ /tɜːmz/
20	<b>menu (n)</b>	a list of things on a computer screen that you can ask the computer to do	Click on the <b>menu</b> to open it.	/'menjuː/
21	<b>microphone (n)</b>	a piece of equipment that you speak into to record your voice or make it louder when you are speaking or performing in public	My laptop has a built-in <b>microphone</b> .	/'maɪkrəfəʊn/

22	<b>open source (phr)</b>	open source software is provided free, and includes the language, the program is written in, so that the people who use it can make changes to the software	Organisations say that freedom is the number one reason to choose <b>open source software</b> .	/'əʊpən/ /sɔ:s/
23	<b>partition (n)</b>	one of several parts into which a computer hard drive can be divided	You might want to partition the hard drive to use the different <b>partitions</b> for different purposes.	/pɑ:'tɪʃn/
24	<b>partition (v)</b>	to divide (the storage area of a hard disk) into two or more parts	You might want to <b>partition</b> the hard drive to use the different partitions for different purposes.	/pɑ:'tɪʃn/
25	<b>product key (or serial number) (phr)</b>	a unique sequence of numbers and letters that is typed into a computer to prove that the user has a licence to load and use a program	<b>Product key</b> is a code that is supplied with an OS or software when purchased.	/'prɒdʌkt/ /ki:/ /'sɪəriəl/ /'nʌmbə(r)/
26	<b>projector (n)</b>	a piece of equipment that makes a film or picture appear on a screen or flat surface	It should be quite easy to connect your laptop to a <b>projector</b> .	/prə'dʒektə(r)/
27	<b>proprietary software (phr)</b>	also known as closed-source software, is a non-free computer software for which the software's publisher or another person retains intellectual property rights—usually copyright of the source code, but sometimes patent rights	With <b>proprietary software</b> the vendor controls software updates.	/prə'praɪətəri/ /'sɒftweə(r)/
28	<b>push (v)</b>	to use your hands, arms or body in order to make somebody/something move forward or away from you	<b>Push</b> the "Function"/"Fn" key and the key with a screen picture at the same time.	/pʊʃ/
29	<b>radio button (phr)</b>	or option button is a graphical control element that allows the user to choose only one of a predefined set of mutually exclusive options.	The two frames below have titles, and a <b>radio button</b> outside of them to select one or the other.	/'reɪdiəʊ/ /'bʌtn/
30	<b>reboot (v)</b>	if you reboot a computer, or if it reboots, you start it up again	Then <b>reboot</b> the computer while you press the "F2" key.	/'ri:bu:t/

31	<b>scroll bar (phr)</b>	a part on the side of a computer screen that you move using a mouse in order to move up or down	Slide the <b>scrollbar</b> down to scroll the window down.	/skrəʊl/ /bɑ:(r)/
32	<b>select (v)</b>	to choose (smth or smb)	<b>Select</b> the icon and its background changes colour.	/sɪ'lekt/
33	<b>speaker (n)</b>	the part of a radio, sound system, computer, etc. where the sound comes out	We bought new <b>speakers</b> for our stereo system.	/'spi:kə(r)/
34	<b>storage (n) (v)</b>	the space where things can be kept	Most <b>storage</b> components can be internal or external (peripherals).	/'stɔ:riɪdʒ/
35	<b>tab (n)</b>	one of several areas in a computer window that allows multiple documents to be shown at the same time	Then, from the box that appears, choose the 'Details' <b>tab</b> .	/tæb/
36	<b>title bar (n)</b>	the coloured bar at the top of a computer window that shows the name of the program and whether it is being used at that time	Double click on the <b>title bar</b> and the window fills the screen.	/'taɪtl/ /bɑ:(r)/
37	<b>USB port (n)</b>	(Universal Serial Bus) a way of connecting equipment such as a mouse and printer to a computer using wires so that all the equipment can work together	And higher up are some <b>USB ports</b> , for connecting your peripherals - you know, things like your keyboard and printer.	/'ju:es'bi:/ /pɔ:t/
38	<b>user account (phr)</b>	a system that records your username and password and gives you access to a computer, your email, etc.	At the end of the process, OS will ask for the product key, time, date, network type and details for <b>user accounts</b> .	/'ju:zə(r)/ /ə'kaʊnt/
39	<b>video camera (phr)</b>	a special camera that can be used to film events and convert them into electronic files	Many shops have installed <b>video cameras</b> for security reasons.	/'vɪdiəʊ/ /'kæmrə/
40	<b>virtual reality goggles (phr)</b>	a pair of special glasses that allow you to see an environment produced by a computer that looks and seems real	<b>Virtual reality glasses</b> or <b>goggles</b> are becoming increasingly popular in the gaming and entertainment spheres.	/'vɜ:tʃuəl/ /ri'æləti/ /'gɒɡlz/

41	<b>webcam (n)</b>	a video camera that broadcasts what it is filming on a website or on another person's computer	He directs his business mostly from home via e-mail and <b>webcam</b>	/'webkæm/
42	<b>right-hand pane</b>	displays the contents of the selected folder or drive.	The contents of the <b>right-hand pane</b> is what you would get if you expanded the selected entry in the left-hand pane.	/raɪt/-/hænd /peɪn/
43	<b>* staff (n)</b>	all the workers employed in an organization considered as a group	The administration <b>staff</b> are using old computers that need updating.	/sta:f/
44	<b>* vendor (n)</b>	a company that sells a particular product	With proprietary software the <b>vendor</b> controls software updates.	/'vendə(r)/
45	<b>** BIOS (Basic input/output system)</b>	a system on PCs that provides a small library of basic input/output functions used to operate and control the keyboard, text display, etc.	Software build into a computer that controls how it starts up is <b>BIOS</b> .	/baɪəs/ /'beɪsɪk/ /'ɪnpʊt/ /'aʊtpʊt/ /'sɪstəm/
46	<b>** DIMM (Dual Inline Memory Module)</b>	an electronic part that is used to give a computer more memory	<b>DIMM</b> is a small circuit board with a number of memory chips on it.	/dɪm/ /'dju:əl/ /'ɪn laɪn/ /'meməri/ /'mɒdju:l/
47	<b>** gig (gigabyte)</b>	a unit of computer information, consisting of 1024 megabytes	<b>Gigabyte</b> is often abbreviated to <b>gig</b> when talking about memory (for example, a four-gig memory module).	/gɪg/ /'gɪgəbaɪt/
48	<b>** MHs (Megahertz)</b>	Hertz - denotes Hz - a unit of measurement of the frequency of batch processes (e.g. oscillations). 1 Hz means one execution of such a process in one second: 1Hz= 1/s. 10 <sup>6</sup> Hz - MHz	CPU has a speed ("clock speed"), which is usually expressed in <b>megahertz (MHz)</b> .	/'megəhɜ:ts/
49	<b>** SATA (Serial Advanced Technology Attachment)</b>	a way of connecting computers to large storage devices such as hard disk drives and optical drives, SSD drives	Hard disk drives, solid state drives and optical drives use <b>SATA</b> connections	/'seɪtə/ /'sɪəriəl/ /əd'vɑ:nst/ /tek'nɒlədʒi//ə'tæɪfmənt/

**\*\* SSD (Solid state drive)**

is a storage device that uses integrated circuit assemblies to store data persistently, typically using flash memory, and functions as secondary storage

A **solid-state drive (SSD)** is a new generation of storage device used in computers.

	terms	definitions	examples	pronunciation
	<b>Unit 3 Data communication (42)</b>			
1	<b>accelerometer (n)</b>	a device that measures the rate at which the speed of an object increases	The <b>accelerometer</b> in the device automatically sends a message if it falls.	/ək,selə'rɒmɪtə(r)/
2	<b>attachment button (phr)</b>	a document or file that is sent with an email message	Check <b>attachment</b> size before sending!	/ə'tætʃmənt/ /'bʌtn/
3	<b>«Back» button (phr)</b>	a small area on a web browser or a computer program that you click on in order to go back to the previous page	If the physical buttons of your phone can not use properly, <b>Back button</b> can let you continue use your phone with simulating the system button.	/bæk/ /'bʌtn/
4	<b>bookmark bar (phr)</b>	a way of saving the address of a page on the Internet so that you can find it again	I can see all my <b>bookmarks</b> now, just below the address bar.	/'bʊkmɑ:k/ /bɑ:(r)/
5	<b>bus network (phr)</b>	a network that links computers on a network to one another	In the <b>bus</b> system there is a central cable which is called a bus, and each computer is linked to it.	/bʌs/ /'netwɜ:k/
6	<b>client-server relationship (phr)</b>	This is when the client requests information from the server, then the server processes the information and sends it to the client.	Many interactions between computers on networks involve a <b>client-server relationship</b> .	/,klaɪənt 'sɜ:və(r)/ /rɪ'leɪʃnʃɪp/
7	<b>delete (v)</b>	to remove (smth that has been written down or stored in a computer)	Even if you <b>delete</b> an email, the recipient could keep their copy	/dɪ'li:t/
8	<b>dongle (n)</b>	a small device that plugs into an electrical connector on a computer and functions as an electronic "key" to unlock access to a piece of software	A <b>dongle</b> is a small box which plug into a USB or similar socket.	/'dɒŋɡl/
9	<b>e-book reader (phr)</b>	a small electronic device with a screen that allows you to read books in an electronic form	If the phone has an <b>e-book reader</b> , users can read books anywhere.	/'i: bʊk/ /'ri:də(r)/

10	<b>electronic communication system (phr)</b>	a communications systems consists of a transmitter, the channel that the signal travels through, and a receiver.	An <b>electronic communications system</b> is one in which information is converted to electrical signals for transmission over copper, fiber-optic, or free space.	/ɪˌlekˈtrɒnɪk/ /kəˌmjuːnɪˈkeɪʃn/ /'sɪstəm/
11	<b>email signature (phr)</b>	your name written in the way you usually write it, for example at the end of an email, a letter, or on a cheque to show that you have written it	You can create a <b>signature</b> for your <b>email</b> messages using a readily available signature gallery template.	/'iːmeɪl/ /'sɪɡnətʃə(r)/
12	<b>enter a password (phr)</b>	to put a secret word or phrase that is used to obtain access to a computer system.	But <b>enter a password</b> , and you'll immediately get access to another hidden set of pictures.	/'entə(r)/ /ə/ /'pɑːswɜːd/
13	<b>follow a link (phr)</b>	to click on a link and go to the part of a document or web page that it takes you to	If you <b>follow links</b> or reply to spam messages, you are confirming that your email address is valid	/'fɒləʊ/ /ə/ /lɪŋk/
14	<b>forward (v)</b>	to send a letter, etc., especially from someone's old address to their new address, or to send a letter, email, etc. that you have received to someone else	He or she might also <b>forward</b> the email to other people.	/'fɔːwəd/
15	<b>link (n)</b>	a special word or picture in an Internet document or on a web page, that you click on to move quickly to another part of the same document/web page or to another document/web page	Click on this <b>link</b> to visit our online bookstore.	/lɪŋk/
16	<b>mesh network (phr)</b>	a network that connects each computer on a network to several others	Some large networks use a <b>mesh</b> . In this, each computer is linked to several others.	/meʃ/ /'netwɜːks/
17	<b>post a comment (phr)</b>	to publish something such as a message or picture on a website or using social media	She hardly ever <b>posts comments</b> on Facebook.	/pəʊst/ /ə/ /'kɒment/
18	<b>recipient's address (phr)</b>	smb who receives an email	Both your email address and the <b>recipient's email</b> address will not be used for any other purpose.	/'rɪsɪpiənts/ /ə'dres/

19	«refresh» button (phr)	if you refresh your computer screen while you are connected to the Internet, you make the screen show any new information that has arrived since you first began looking at it	The <b>refresh button</b> , also known as refresh option, is a function of all Internet browsers.	/rɪ'frefʃ/ /'bʌtn/
20	«reply» button (phr)	to answer	I try to <b>reply</b> to letters the day I receive them	/rɪ'plai/ /'bʌtn/
21	request (n)	the act of politely or officially asking for something	Read the company profile and the <b>requests</b> from staff members	/rɪ'kwest/
22	ring network (phr)	a network in which each computer connects to exactly two others forming a single continuous pathway for signals through each computer	Another type is a <b>ring</b> system. This is a network that has each computer linked to two others.	/rɪŋ/ /'netwɜ:k/
23	search bar (phr)	a rectangular space on a computer screen where you type words in order to look for them automatically in a document, on a website, etc.	A <b>search bar</b> is a part of a browser that helps you find things.	/sɜ:tʃ/ /bɑ:(r)/
24	spell checker (phr)	a computer program that tells you when you have spelled a word wrongly	After you've finished each chapter, run the <b>spell checker</b> .	/spel/ /'tʃekə(r)/
25	star network (phr)	a network in which computers are connected to a central unit, rather than to each other	One is a <b>star</b> system. In this, each computer is connected to a central server.	/stɑ:(r)/ /'netwɜ:k/
26	stream video (phr)	to listen to or watch sound or video on a computer, mobile phone, etc. directly from the internet	Wi-fi networking allows you to <b>stream video</b> from a PC to the device.	/stri:m/ /'vɪdiəʊ/
27	subject line (phr)	the place in an email where you put the name of thing you are talking about or considering	The email <b>subject line</b> was blank.	/'sʌbdʒekt/ /laɪn/
28	USB recharger (phr)	allows the device's battery to be recharged from any computer that has a USB socket.	If the device has a <b>USB recharger</b> , people can recharge it from their laptops.	/ju:es'bi:/ /ri:'tʃɑ:dʒər/
29	web address (phr)	an internet address, used for visiting a website or sending email	The search bar is the same place that you type the <b>web address</b> into.	/web/ /ə'dres/

30	* <b>consultant</b>	a person who knows a lot about a particular subject and is employed to give advice about it to other people	She set up in business as a management <b>consultant</b> .	/kən'sʌltənt/
31	* <b>take part in (phr)</b>	to be involved in (an activity, webinar, sport, event, etc.) with other people	You can <b>take part in</b> a webinar anywhere that you have a computer with an internet connection and a web browser.	/teɪk/ /pɑ:t/ /ɪn/ /ə/ /'webɪnɑ:(r)/
32	** <b>ARPANET (Advanced Research Projects Agency Network)</b>	A computer network created in 1969 in the US by the Department of Defense Advanced Research Projects Agency (DARPA) and was a prototype of the Internet. It became the first network in the world for transferring data used on the Internet (called protocols), HTTP (hyper transfer protocol). ARPANET ceased to exist in June 1990.	The internet developed from 1960s computer networks such as <b>ARPANET</b> , which became the basis of the World Wide Web.	/'ɑ:pənet/ /əd'vɑ:nst/ /rɪ'sɜ:tʃ/ /'prɒdʒekt/ /'eɪdʒənsɪ/ /'netwɜ:k/
33	** <b>ATM (Automated Teller Machine)</b>	a machine, usually in a wall outside a bank, shop, etc. from which you can take money out of your bank account using a special card	<b>ATMs</b> use a WAN, they need to send data to the bank's main computer to know how much money someone can take out.	/,eɪ ti: 'em/ /,ɔ:təmeɪtɪd 'telə məʃi:n/
34	** <b>BCC (Blind Carbon Copy)</b>	a copy of a letter or email that is sent to someone without the knowledge of the other person or people it is sent to	If you are copying emails to people who don't know each other, use the ' <b>BCC</b> ' line so that they can't see each other's email addresses.	/bi: si: si:/ /blaɪnd/ /'kɑ:bən/ /'kɒpi/
35	** <b>CC (Carbon Copy)</b>	written on a letter, email, etc. before the name or email address of someone who will receive a copy	Recipients can see the Carbon copy ( <b>CC</b> ) addresses but not the BCC addresses.	/si: si:/ /'kɑ:bən/ /'kɒpi/
36	** <b>e-book (electronic book)</b>	an electronic book which can be read on a small personal computer	Both hard-copy and <b>e-book</b> versions are available online.	/'i: bʊk/ /ɪ,lek'trɒnɪk/ /bʊk/
37	** <b>GPS (Global Positioning System)</b>	system which uses signals from satellites orbiting Earth to work out the position of the device to a high degree of accuracy	The devices have cameras and <b>GPS</b> so the warden can take photographs of illegally parked cars.	/'dʒi:pi:'es/ /,gləʊbl pə'zɪʃənɪŋ sɪstəm/

38	<b>** OCR (Optical Character Recognition)</b>	software, which converts images, perhaps from the device's camera, to data (words, characters, numbers, etc.) that a computer can understand and use.	Then <b>optical character recognition (OCR)</b> technology can read the car's recognition number from the photograph and transmitt it wirelessly to a central database.	/,əʊ.si:'ɑ:r/ /,ɒptɪkl 'kærəktə rekəgnɪʃn/
39	<b>** PIN (Personal Identification Number)</b>	a secret number that a person uses together with a special card to get money from their bank account out of a machine, or when paying by credit card	Please enter your <b>PIN</b> number.	/pɪn/ '/pɜ:sənəl aɪ,dentɪfɪ'keɪʃn 'nʌmbə(r)/
40	<b>** URL (Uniform Resonance Locator)</b>	the internet address for a website	To send a link to someone, click on the <b>URL</b> to copy it and then paste it into an email.	/ju:ɑ:r'el/ /'ju:nɪfɔ:m 'rezənəns læʊ'keɪtə(r)/
41	<b>** VoIP ( Voice over Internet protocol)</b>	technology that allows people to make phone calls over the internet	Most <b>VoIP</b> services have the ability to transfer your current phone number to your new service.	/vɔɪp/ /vɔɪs 'əʊvə 'ɪntənət 'prəʊtəkɒl/
42	<b>** Wi-Fi (Wireless Fidelity)</b>	a way of connecting computers or other electronic machines to a network by using radio signals rather than wires	Laptops and tablet computers such as the iPad often connect to the internet using <b>wi-fi</b> .	/'waɪ.fai/ /'waɪələs fɪ'deləti/

	terms	definitions	examples	pronunciation
	<b>Unit 4 Administration (48)</b>			
1	<b>barcode (n)</b>	a pattern of thick and thin lines that is printed on things you buy. It contains information that a computer can read.	An example of a <b>barcode</b> can be found on the back of the Course Book.	/'bɑ:kəʊd/
2	<b>cell (n)</b>	one of the small squares in a spreadsheet computer program in which you enter a single piece of data	That's in <b>cell</b> B6, where column B meets row 6.	/sel/
3	<b>check logs (phr)</b>	to look at logs or ask somebody to find out if logs are present, correct or true	And did you <b>check the logs</b> ?	/tʃek/ /lɒgz/
4	<b>check smth. out (phr v)</b>	to make sure that smth is actually true, correct or acceptable; to investigate	Let's <b>check that out</b> later?	/tʃek/ /'sʌmθɪŋ/ /aʊt/
5	<b>colon (n)</b>	the mark (:) used to introduce a list, a summary, an explanation, etc. or before reporting what somebody has said	We use <b>colons</b> to introduce lists: ...	/'kəʊlən/
6	<b>comma (n)</b>	the mark (,) used to separate the items in a list or to show where there is a slight break in a sentence	The relative clause is separated by <b>commas</b> .	/'kɒmə/
7	<b>daily log (phr)</b>	an official record of something	Project managers are instructed to keep a <b>daily log</b> of their activities.	/'deɪli/ /lɒg/
8	<b>dash (n)</b>	the mark (—) used to separate parts of a sentence, often instead of a colon or in pairs instead of brackets	<i>www.d-o-socialwork...</i> "W-W-W, dot, D, <b>dash</b> , O, <b>dash</b> , socialwork; all one word..."	/dæʃ/
9	<b>deploy software (phr)</b>	to use software, especially in order to achieve a particular effect	How did the upgrade to the accounting <u>software</u> go? We <b>deployed it</b> OK.	/dɪ'plɔɪ/ /'sɒftweə(r)/
10	<b>disk crash (phr)</b>	an occasion when a disk suddenly stops working	In the Design Department, one of the computers had a <b>disk crash</b> , so I put in a new one and recovered the data from backup.	/disk/ /kræʃ/
11	<b>divide (v)</b>	to calculate how many times (one number) contains a smaller number	8 <b>divided</b> by 2 is 4.	/dɪ'vaɪd/

12	<b>dot (n)</b>	a symbol like a full stop used to separate parts of a domain name, a URL or an email address	<i>www.d-o-socialwork...</i> "W-W-W, <b>dot</b> , D, dash, O, dash, socialwork; all one word..."	/dɒt/
13	<b>equals (n) (v)</b>	the symbol (=) in mathematics; to be the same in amount, number, size, or importance as another	All formulae have to start with an <b>equals</b> sign	/'i:kwəlz/
14	<b>field (n)</b>	in a computer document, an amount of space made available for a particular type of information	It has several <b>fields</b> - like cells in a spreadsheet.	/fi:ld/
15	<b>form (n)</b>	an official document with spaces where you write information, especially about yourself	It has the usual objects - tables, <b>forms</b> and reports.	/fɔ:m/
16	<b>formula (n)</b>	a series of letters, numbers or symbols that represent a rule or law	I typed in the <b>formula</b> from your instructions but I just get an error message.	/'fɔ:mjələ/
17	<b>function (n)</b>	a special activity or purpose of a person or thing	Only very basic formulae are mentioned here, using arithmetical expressions and a <b>function</b> .	/'fʌŋkʃn/
18	<b>graphics tablet (phr)</b>	a device that allows you to draw on its surface, using a stylus rather than a mouse, with the results appearing on your computer screen	<b>Graphics tablet</b> has a flat pressure-sensitive pad.	/'græfiks/ /'tæblət/
19	<b>headset (n)</b>	a set of headphones, often with a microphone attached	<b>Headset</b> is a device people wear on their heads that includes a microphone as well as headphone.	/'hedset/
20	<b>lock someone out of smth. (phr)</b>	if smb is locked out of a computer, system, etc. they cannot access it	Someone <b>locked me out of my office</b> .	/lɒk/ /'sʌmwʌn/ /aʊt/ /əv/ /'sʌmθɪŋ/
21	<b>multifunctional printer (phr)</b>	a multifunction printer is designed to have several different uses, e.g. printing, faxing, scanning, etc.	<b>Multifunctional printer</b> is a printer that also has other functions such as scanning, copying and/or faxing.	/.mʌlti'fʌŋkʃənl/ /'prɪntə(r)/
22	<b>multiply (v)</b>	to do a calculation in which you add (a number) to itself a particular number of times	If we <b>multiply</b> 8 by 2, we get 16.	/'mʌltɪplaɪ/

23	<b>object (n)</b>	a combination of written information on a computer and instructions that act on the information, for example in the form of a document or a picture	A database has several parts, which are called <b>objects</b> .	/ˈɒbdʒɪkt/
24	<b>open/close bracket (v)</b>	one of the pair of signs ( ) put around words to show extra information	<i>fx=if (A=20,B2,0)</i> "equals if... <b>open bracket</b> ...A equals 20 ...comma... B2comma ...nought... <b>close bracket</b> "	/ˈəʊpən/ /kləʊz/ /ˈbræki/
25	<b>primary key (phr)</b>	a field in a table which uniquely identifies each row/record in a database table.	For each of these tables, discuss which field is a good <b>primary key</b> .	/ˈpraɪməri/ /ki:/
26	<b>query the database (phr)</b>	to ask a question about the data stored in a computer system, in order to retrieve some information	We can find the total number of hours by <b>querying the database</b> .	/ˈkwɪəri/ /ðə/ /ˈdeɪtəbeɪs/
27	<b>question mark (phr)</b>	the mark (?) used in writing after a question	<i>www.d-o/school_2.html?72</i> "W-W-W, dot, D, dash, O, slash, school, underscore, two, dot, H-T-M-L, <b>question mark</b> , 72 "	/ˈkwɛstʃən/ /mɑ:k/
28	<b>report (n)</b>	a spoken or written description of something containing information that somebody needs to have	By running a <b>report</b> , we can print a list of customers.	/rɪˈpɔ:t/
29	<b>reset a password (phr)</b>	to change a password, so that it shows a different number or is ready to be used again	After <b>resetting the password</b> , log in to check that the new one works.	/,ri:'set/ /ə/ /'pɑ:swɜ:d/
30	<b>retrieve a record (phr)</b>	to get back a piece of information that has been stored in the memory of a computer	You can find information in a database by <b>retrieving a record</b> , querying the database or running a report.	/rɪ'tri:v/ /ə/ /'rekɔ:d/
31	<b>run smoothly (phr)</b>	if a planned event, piece of work, etc. runs smoothly, there are no problems to spoil it	There're all <b>running smoothly</b> .	/rʌn/ /'smu:ðli/

32	<b>set up a user account (phr)</b>	to create a user account or to make a user account ready for use	This is the type of <b>account</b> you should <b>set up</b> for other people, as it means they don't have full control on the computer.	/set/ /ʌp/ /ə/ /'ju:zə(r)/ /ə'kaunt/
33	<b>set permissions (phr)</b>	refers to adjusting a user account so that permission to access certain places or do certain things is given or denied.	I <b>set</b> their <b>permissions</b> on the system and showed them around the network.	/'setɪŋ/ /pə'mɪʃn/
34	<b>slash (n)</b>	the symbol / used in writing to separate letters, numbers, or words	<i>www.d-o/school_2.html?72</i> "W-W-W, dot, D, dash, O, <b>slash</b> , school, underscore, two, dot, H-T-M-L, question mark, 72 "	/slæʃ/
35	<b>stylus (n)</b>	a thing shaped like a pen, used for writing on a special computer screen	A <b>stylus</b> is also an electronic device which is used to activate digitizing tablet components.	/'stɑɪləs/
36	<b>subtract (v)</b>	to take (a number or an amount) from a larger number or amount	If we <b>subtract</b> 2 from 8, we get 6.	/səb'trækt/
37	<b>sum (n)</b>	the total produced when you add two or more numbers or amounts together	Then, after that, is the function, which, in this case, is <b>sum</b> .	/sʌm/
38	<b>table (n)</b>	a list of numbers, facts or information arranged in rows across and down a page	The <b>table</b> looks like a spreadsheet.	/'teɪbl/
39	<b>up and running again (phr)</b>	working correctly again after a period of not working	It was <b>up and running again</b> in a couple of hours.	/ʌp/ /ənd/ /'rʌnɪŋ/ /ə'ɡen/
40	<b>total number (phr)</b>	to add up amounts to get a final number	If we add those three values, we get a <b>total number</b> .	/'təʊtl/ /'nʌmbə(r)/
41	<b>touch screen (phr)</b>	a type of computer screen that you touch in order to tell the computer what to do or to get information	Customers use a <b>touch screen</b> to buy tickets.	/tʌtʃ/ /skri:n/

42	<b>touchpad (n)</b>	an area on a computer that you touch in order to tell the computer what to do or to get information	Laptops use a <b>touchpad</b> instead of a mouse for moving the cursor.	/'tʌtʃpæd/
43	<b>underscore (n)</b>	the character _ on a computer keyboard, used to draw a line under a letter or word, and also used in file names where a space is not allowed	<a href="http://www.d-o/school_2.html?72">www.d-o/school_2.html?72</a> "W-W-W, dot, D, dash, O, slash, school, <b>underscore</b> , two, dot, H-T-M-L, question mark, 72 "	/,ʌndə'skɔ:(r)/
44	<b>unique (adj)</b>	being the only one of its kind	Make sure each record in a database is <b>unique</b> .	/ju'ni:k/
45	<b>value (n)</b>	the number or amount that a letter or symbol represents	We wrote it to add these three <b>values</b> : £2.17, £9.45 and £2.99.	/'vælju:/
46	<b>worksheet (n)</b>	a single page or tab within a spreadsheet document	OK, so here's the price calculations <b>worksheet</b> .	/'wɜ:kʃi:t/
47	<b>* assistant (n)</b>	a person who helps or supports somebody, usually in their job	My <b>assistant</b> will now demonstrate the machine in action.	/ə'sistənt/
48	<b>** NAS (Network attached storage) device</b>	a system that allows files to be stored and retrieved across a computer network	<b>NAS (Network attached storage) device</b> is a collection of drives in a single box, accessed through a network.	/næs/ /'netwɜ:k/ /ə'tætʃt/ /'stɔ:ɹɪdʒ/ /dɪ'vaɪs/

	terms	definitions	examples	pronunciation
	<b>Unit 5 Choice (44)</b>			
1	<b>2-D drawing tools</b>	used for creating and editing technical drawings	These features would be useful for CAD: <b>2-D drawing tools</b> , good compatibility with file formats from other software.	/tu:/ /di:/ /'drɔ:ɪŋ/ /tu:lz/
2	<b>3-D drawing tools</b>	used for creating a mathematical representation of a 3-dimensional object or shape	This package does have limited <b>3-D tools</b> , though.	/θri:/ /di:/ /'drɔ:ɪŋ/ /tu:lz/
3	<b>4-D drawing tools</b>	a type of graphic simulation, used to describe the full spectrum of dynamic media	The <b>4D-drawing tool</b> simulates the construction process, and encourages pre-planning at the early stages when optimal solutions can be planned and implemented.	/fɔ:r/ /di:/ /'drɔ:ɪŋ/ /tu:lz/
4	<b>basic plan (phr)</b>	the main set of actions for achieving something in the future, especially a set of actions that has been considered carefully and in detail	The <b>basic plan</b> gives you more bandwidth than the Superior plan.	/'beɪ.sɪk/ /plæn/
5	<b>card reader (phr)</b>	a device in a computer, etc. that can move data from another device on which it has been stored	The computer was supplied with an integrated 4 in 1 <b>card reader</b> .	/kɑ:d/ /'ri:dər/
6	<b>dedicated hosting (phr)</b>	a system where each individual website is held on its own web server connected to the Internet	<b>Dedicated hosting</b> is more secure than shared hosting.	/'ded.ɪ.keɪ.tɪd/ /'həʊstɪŋ/
7	<b>downtime (n)</b>	the time during which a machine, especially a computer, is not working or is not able to be used	Last year computer <b>downtime</b> cost the company \$4,000 in lost productivity.	/'daʊn.taɪm/
8	<b>electricity (n)</b>	a form of energy that can be produced in several ways and that provides power to devices that create light, heat, etc.	The <b>electricity</b> has been turned off.	/,el.ɪk'trɪs.ə.ti/

9	<b>file format compatibility (phr)</b>	the capacity for two systems to work together without having to be altered to do so	Simdesk - online office suite from Simdesk Technologies, Inc. This suite offers partial <b>compatibility</b> with the Microsoft Office <b>file formats</b> (Word, Excel, and Powerpoint).	/faɪl/ /'fɔː.mæt/ /,m.kəm.pæt.ə'bɪl.ə.ti/
10	<b>forums (n)</b>	a group of computer users who are interested in a particular subject and discuss it using email or the Internet	Discussion <b>forums</b> are a way of contacting people with similar interests from all over the world.	/'fɔː.rəmz/
11	<b>freeware (n)</b>	free computer software, often available on the Internet	Google Chrome is a <b>freeware</b> web browser developed by Google.	/'friː.weər/
12	<b>host (v)</b>	to provide the computer hardware and software that allows a website to exist on the internet	I've written my website, now I just need to find a company to <b>host</b> it.	/həʊst/
13	<b>hosting service (phr)</b>	a type of Internet hosting service that allows individuals and organizations to make their website accessible via the World Wide Web	Alternatively, <b>hosting service</b> can be bought from the company of the founders.	/'həʊstɪŋ/ /'sɜː.vɪs/
14	<b>internet service (phr)</b>	the services provided by the Internet is used for interaction, business, marketing, downloading files, sending data etc.	We decided to buy the whole <b>internet service</b> together with its position and mark.	/ɪntə'nɛt/ /'sɜː.vɪs/
15	<b>IP-address (phr)</b>	a special number that is used to identify a computer, and which the computer needs in order to be able to connect to the Internet	Write down the server computer's <b>IP address</b> .	/aɪ'piː ə,dres/
16	<b>least powerful (adj)</b>	the smallest amount of power	The Basic plan has the <b>least powerful</b> processor.	/liːst// 'paʊə.fəl/
17	<b>memory card (phr)</b>	a small piece of equipment that you use to store images, videos, etc. in digital cameras and other equipment	It will take about 25 seconds for the camera to write all the images to a <b>memory card</b> .	/'mem.ər.i,kɑːd/
18	<b>minimum (n)</b>	the smallest amount or number allowed or possible	He achieved enviable results with the <b>minimum</b> of effort.	/'mɪn.i.məm/

19	<b>option (n)</b>	one of the possible choices you can make when using computer software	Select an <b>option</b> from the main menu.	/ˈɒp.ʃən/
20	<b>presentation (n)</b>	a talk giving information about something	I'm going to ask each of you to make a short <b>presentation</b> .	/ˌprez.ən'teɪ.ʃən/
21	<b>shared hosting (phr)</b>	a system where many websites are held on one web server connected to the Internet	I recommend the <b>shared hosting</b> option for these reasons.	/ʃeəd/ /'həʊstɪŋ/
22	<b>spare battery (phr)</b>	an extra battery, in case you need it	The <b>spare battery</b> should be easily ordered from Apple.	/speə/ /'bæt.əri/
23	<b>to give advice (phr)</b>	to advise, to recommend	Your company has asked you <b>to give advice</b> for a client.	/tu/ /gɪv/ /əd'vaɪs/
24	<b>transfer (n)</b>	to move someone or something from one place to another	<b>Transfer</b> the data onto a disk.	/træns'fɜːr/
25	<b>uptime (n)</b>	the period of time when a computer is working normally and is able to be used	We offer 24-hour service support with <b>uptime</b> guarantees.	/'ʌptaim/
26	<b>USB cables (n)</b>	Universal Serial Bus: a part of a computer to which extra devices such as printers, scanners, and digital cameras can be connected easily; a set of wires, covered by plastic, that carries electricity, phone signals, etc.	Digital data are transferred from the probe to the body through the standard <b>USB cable</b> .	/ˌjuː.es'biː/ /'keɪ.bəl/
27	<b>* extended warranty (phr)</b>	a written agreement in which a company selling sth promises to repair it if it breaks within a particular period of time that is longer than the basic guarantee	Only about 20% of the products covered by an <b>extended warranty</b> are ever brought in for repair, the agency says.	/ɪk'sten.dɪd/ /'wɒr.ən.ti/
28	<b>* freelancer person (phr)</b>	someone who works on different projects with different companies instead of being a companys employee	He started off his career working as a <b>freelancer</b> at a design firm.	/'friːlɑːnsər/ /'pɜː.sən/

29	* <b>freemium pricing (phr)</b>	a way of charging for sth that means that you pay nothing for the simplest version of it, or are charged for more complicated versions	<b>Freemium pricing</b> is just like tiered pricing but the lowest level is free.	/'fri:.mi.əm/ /'praɪ.sɪŋ/
30	* <b>guarantee(n)</b>	a written agreement made by a company to repair one of its products or give you a new one if it has a fault	What <b>guarantees</b> and support do they provide?	/'gærən'ti:/
31	* <b>purchase cost (phr)</b>	the quoted price of inventory minus any discounts allowed plus shipping charges	What was the <b>purchase cost</b> of your computer in total?	/'pɜ:.tʃəs/ /kɒst/
32	* <b>software license (phr)</b>	to give someone official permission to do or have something	The GPL is probably the most widely recognized free <b>software license</b> in the world today.	/'sɒft.weər/ /'laɪ.səns/
33	* <b>subscription pricing (phr)</b>	a way of charging for sth where you pay an amount of money once every month, year, etc. to receive a service or use a product	In <b>Subscription pricing</b> the buyer pays a regular fee, usually monthly, to use the software.	/'səb'skrɪp.ʃən/ /'praɪ.sɪŋ/
34	* <b>tiered pricing (phr)</b>	a way of charging for sth that means that you pay more for a more complicated version of it, or less for a simpler version	In <b>tiered pricing</b> there are at least two levels(or tiers) of the software product.	/'tiəd/ /'praɪ.sɪŋ/
35	* <b>traditional pricing (phr)</b>	a way of charging for sth that follows ideas and methods that have existed for a long time, rather than doing anything new or different	<b>Traditional pricing</b> is the model most common in consumer software.	/'trə'dɪʃ.ən.əl/ /'praɪ.sɪŋ/
36	* <b>training course (phr)</b>	a series of lessons to teach the skills and knowledge for a particular job or activity	She had almost no computer knowledge, so she signed up for a <b>training course</b> .	/'treɪ.nɪŋ//kɔ:s/
37	* <b>warranty (n)</b>	a written promise from a company to repair or replace a product that develops a fault within a particular period of time, or to do a piece of work again if it is not satisfactory	The stereo came with a three-year <b>warranty</b> .	/'wɒr.ən.ti/

38	<b>** 2-D (two-dimensional)</b>	flat; having only two dimensions	In computing, Java <b>2D</b> is an API (application programming interface) for drawing two-dimensional graphics using the Java programming language.	/,tu:/'/'dar'men.fən.əl/
39	<b>** 3-D (three-dimensional)</b>	having or appearing to have three dimensions (= length, width, and height) and therefore looking real	I haven't done any <b>three-dimensional</b> design, though 3D may be useful in the future.	/θri:/ /dar'men.fən.əl/
40	<b>** 4-D (four-dimensional)</b>	having four dimensions, usually length, width, depth, and time	The geometry of objects in the <b>fourth dimension</b> is more complex.	/fɔ:r/ /dar'men.fən.əl/
41	<b>** CAD (Computer Aided Design)</b>	a computer technology that designs a product and documents the design's process	We need a <b>CAD</b> system to speed up the design process.	/kəm,pju:tə.ri.dɪd dr'zæn/
42	<b>** CMS (Content Management System)</b>	a software application or set of related programs that are used to create and manage digital content.	I also recommend purchasing the subscription-based <b>CMS</b> to look after your website.	/kən'tent/ /'mæn.ɪdʒ.mənt/ /'sɪs.təm/
43	<b>** TCO (Total Cost of Ownership)</b>	a calculation of all the costs involved in buying and using a product over time	Overall, my estimate for the <b>TCO</b> for the Kyoseki is \$1,580 over two years.	/'təʊ.təl/ /kɒst/ /ɔv/ /'əʊ.nə.ʃɪp/
44	<b>** SaaS (software as a service)</b>	a software licensing and delivery model in which software is licensed on a subscription basis and is centrally hosted	In the early years of the 21st century, another successful business model has arisen for hosted software, called <b>software-as-a-service, or SaaS</b> .	/'sɒft.weər/ /æz /ə/ /'sɜ:.vɪs/
